Turner Asks Co-operation on New Road Thru County

Tree sitting endurance. Well, we have been up a tree for a second time, now we hope to come down and all pull together to put over the biggest thing to come to Calloway county in the road problem.

An order made by the state road department of Kentucky putting on a Federal Aid from Wicksburg to Mayfield, Murray, Scott, Fishburg bridge over Tennessee at Paris landing will insure us an attractive trunk line through Murray over Coldwater and Concord routes, over Paris bridge.

We hope all landowners along, from intersection of Paris road to Kentucky state line at Pink Curd's will co-operate to make that road permanent. The road having been surveyed should show the people along the route what will be necessary to make a permanent road, straightening out, cut off right of way and let every lick count to make this road permanent.

This is the only route that can be used to reach Hazel and Henry county this winter, also the Buchanan section.—T. O. Turner.

Prize Winning Butter and Milk

At the Kentucky State Fair last week we won second prize on a tub of our Sunburst Pasteurized Sweet Cream Butter. Also won second prize on 10 1-lb. Butter packed in Sunburst cartons. The first-prize winner in both of these classes was the Ideal Pure Milk Company of Evansville, Ind., who only scored one-half of 1 per cent higher than we did.

We also won second prize on four bottles of our Sunburst Pasteurized Milk.

These entries were taken from our regular "plant run" of butter and milk, like we sell in Murray every day.

This was our first effort at showing our products at the fairs and we are proud of the showing we made in view of the very keen competition we had to meet.

AMERICAN AIR CADETS CHAPTER TO BE ORGANIZED IN THIS CITY

Boys 10 to 20 years of age eligible to join and make models for airplanes and study building of aircraft—Dale, Stubblefield & Co. is headquarters.

With the great interest in flying among Murray boys, it was only natural that a chapter of the American Air Cadets should be organized here, to give boys between the ages of ten and twenty years instruction in building their own planes, reading blueprints and building scale models. The American Air Cadets has 75 chapters in this state alone and over 2,000 throughout the United States and others are being organized as fast as the field men can do it.

E. C. Staln, district organizer, of Buffalo, was in town last week to get the chapter started and find this field admirably adapted to it. The purpose of the organization is to instruct the aircraft model in a practical manner for the benefit of all in the advancement of aviation.

Murray and vicinity has hundreds of boys interested in aviation and it is expected that the chapter here will soon have a large enrollment.

Mayor Edd Filbeck, who has been a leader in Boy Scout work in this city for several years and Roy Weatherly, scoutmaster, have signed as sponsors for the new chapter, and promise every possible assistance in making it a real live one.

The purpose of this organization is to co-ordinate the Aircraft Model Clubs of the Nation in a practical manner for the benefit of all, and the advancement of aviation.

The Principles and Aims of this organization far overshadow any personal ambitions of its sponsors, based on a sincere desire to provide the youth of America the wherewith to learn about and take part in the most important and epoch making event of all history, Aviation.

The best manner in which the youth of America can be of benefit to their country and the new state of aviation is in the building of aircraft models in order to develop constructive minds and ideas.

success for the boys of this city. Dale, Stubblefield & Co. is the focal headquarters. The chapter will be organized by the members in making their models. Vernon Stubblefield, Sr., will personally look after the ladies' classes as soon as the supplies are received. In the meantime, any boys having models of airplanes are invited to bring them to Dale, Stubblefield & Co. for exhibition, and a prize is offered for the best model. Contests will be held from time to time, it is expected, and then there are the state and national contests for the best model, and here is where the real interest centers. All boys who are interested in aviation—and who are not—are invited to get in touch with the leaders as soon as possible and get the benefit of early membership. Let's make the Murray Air Cadet Chapter a real live one.

Memberships in the American Air Cadets entitles each member to the following privileges:

1. Each member will receive on request a membership card and he will be given an official "A. A. C. Member's Pin" (Globe-Monkey) free.
2. A complete kit with which to build the first flying model plane will be supplied to the Member for fifty cents.
3. As soon as Member has built one flying model that will fly ten seconds he will be promoted to the second rank. Pilot rank gives a Pilot's Badge (Bring plane in).
4. He will then construct one plane that will fly one minute and a half for which he will receive the American Air Cadets official "ACE" insignia.
5. A. A. C. Members are eligible to compete in local, state and national model airplane tournaments.
6. A Charter has been issued and is on display at Club Headquarters. Meetings, contests and all activities of this Club will be announced from time to time in the local Headquarters. In this newspaper.
7. Any person may join the Club but contests open only to those under 20 years of age.

**Few Failures in
Kentucky Banking**

Kentucky has relatively few bank failures compared with many other states, according to a study made by C. J. Bradley, of the department of markets and rural finance of the University of Kentucky College of Agriculture and Experiment Station.

During the period from 1921 to 1929, based on the number of banks operating June 30, 1929, only 7.4 per cent of the banks in Kentucky failed, compared to 11.7 per cent of the banks in Florida, 56.8 per cent of the banks in South Dakota, 50 per cent of the New Mexico banks, 47.8 per cent of the North Carolina banks, 47 per cent of the Montana banks, 43 per cent of the Georgia banks, 32 per cent of the Idaho banks, 30 per cent of the Arizona banks and 30 per cent of the Wyoming banks.

Mr. Bradley points out that a minimum paid-in capital stock of \$15,000 is required in Kentucky for the organization of state banks, whereas in many of the states having a large number of failures the capital stock may be as low as \$5,000. In several states having many failures there are a large number of private banks, whereas Kentucky has no private banks.

Farm mortgages held by Kentucky banks are written in much more conservative form as are short-term loans in other words, farm mortgages are quite generally written for four, five and six months periods, and are renewed from time to time as necessary. Thus, a high degree of farm mortgage security is maintained by banks, and this condition is of primary importance to successful banking during trying financial periods.

Finally, Kentucky has experienced no such economic reverse during recent years as the boll weevil in the Old South, or the inflation and resultant deflation of land values wrought in Florida.

Twelve Caldwell county farmers are eligible to the state fairs honor roll.

**Felt Bad
After Eating**

"Before I started taking Black-Draught, three years ago, my health was very bad," writes Mrs. C. C. Carson, 945 Concord St., Beaumont, Texas. "I suffered constantly from constipation. I had headache when I got up in the morning, and I felt dull and sluggish. I hardly ate a meal that my food agreed with. Frequently I would have gas on my stomach, and felt awful."

Tired about Black-Draught, and I thought it might help me. After I had taken a little while, I felt much better. It relieves constipation. I keep it on hand so when I need a laxative I will have it. In the three years I have been taking it, I have never found anything as good for constipation."

July 26 in Anniversary

Announcement has just been made of the marriage of Miss Lucille Gilliam of Mayfield to Mr. Noble Dick, of Murray. The wedding was solemnized at Paducah July 26 but was made known Friday by the bride and bridegroom.

Rev. J. F. Shelton, Baptist minister of Paducah, performed the ceremony. The only attendants were Miss Cleo Evans and Miss Ruby Shelton.

Mr. Dick is the attractive daughter of Mr. and Mrs. H. H. Gilliam, of Mayfield. She is a graduate of Mayfield high school and for the past two years has been connected with the Evans Drug Co.

Mr. Dick, one of Murray's best known young men, is the son of Mr. and Mrs. Clint Dick. He was a star athlete at Murray high school through the 1928 season and since that time has been a valued employee of the Murray Wholesale Grocery. Both young people have many friends who wish them happiness.

200,000 EXPECTED AT MID-SOUTH FAIR

Annual Event, Opening September 21. Promises To Be Best in History.

Memphis, Tenn., Sept. 18 (Special)—Built around an elaborate program of entertainment and amusement, Mid-South Fair opens here Sunday with predictions that 200,000 people will visit it. The Fair will last all week starting September 21.

A challenge to drought and slow business conditions, the Memphis exposition will be greater in all respects than any of its twenty-two annual predecessors. Agricultural exhibits will be fully as large while the livestock, dairy, nursery and other displays are better.

The fact that a great many people will look to the Memphis Fair this year as their chief entertainment and vacation for the year has led to the booking of more magnificent attractions than in former years.

A gorgeous musical comedy, declared to be the best musical show ever brought to Memphis, will be the nightly attraction before the grandstand. It will be gloriously show of elaborate staging and scenic effects.

The Royal Scotch Highlander band is being brought for a full week's engagement. Free vaudeville of the best type will be given between the afternoon horse races daily and nightly airplane flights with stunting and acrobatics and aerial fireworks and an aviation show fully twice as large as any previous one will be an attractive feature. A "sausage" passenger balloon such as used for observations during the world war will show over the city daily. Automobile races on the concluding day will bring America's best dirt track stars here.

As a final number, a gorgeous wedding ceremony, with a Memphis couple as the principals, will be staged in front of the grandstand with the musical comedy settings and personnel lending color. It is to be "the perfect wedding" and very solemn, correct and doubtless will be the most elaborate as well as the largest attended function ever witnessed here.

The more undesirable a reputation, the harder it is to lose.

What an Appetite!

"Ever since I started taking Herbine I have been able to eat all the good food I always had to deny myself without suffering from indigestion, sour stomach and sick headaches. That's why I would not be without it in the house," says J. L. Carpenter, 126 Lowell Ave., in San Antonio.

Herbine is a vegetable liquid which does nothing more than help your stomach and bowels take care of the food you eat. That eliminates the gas which causes constipation, biliousness, sick headache, indigestion, and sour stomach. Then your blood gets plenty of vitamins, to build red corpuscles and give you strength.

COMMON STOCKHOLDERS TAKE THE RISK OF LOSS

Prominent Utility Executive Shows That Public Utility Holding Companies Should Be Allowed Freedom From Restrictive Legislation In Making Investments

Why holding companies, as owners of common stock in operating utility companies, should be given the incentive to take progressive steps by being allowed freedom of action, is demonstrated by a widely known utility executive.

He makes clear why the risk of loss must be offset by the privilege of profitable investment as a necessary motive force. Regulation of the operating company, with freedom of the holding company is shown to be to the public's best interests. In proof and explanation of this he said:

"A man's resentment at a search of his house is at least as great if he is innocent of wrongdoing as it would be if he were harboring a criminal. If one were required to report his actions to a policeman at every block, his annoyance and protest would not necessarily indicate guilt."

"The fact that the electric industry is affected with a public interest does not alter the situation because the holding company exists within a field completely circumscribed by state regulation. In other words, the interests of the consumer have been taken care of before a cent of revenue accrues to the holding company."

Based on Misconception

"The demand for regulation of electric light and power 'holding' companies seems to be based on a misconception of the electric industry, which in actuality is a thing in action, growing, changing, improving all the time. We have to recognize spirit, motive, incentive, initiative and enterprise as the real driving forces which give life to this industry, as they give life to all human accomplishments."

"By purchasing the common stocks of operating power companies and by continuing ownership of these securities, the holding companies make possible a progressive policy of service extensions and rate reductions."

Little Likelihood of Loss

"If the service is extended into new territories there is little likelihood that either the bondholders or preferred stockholders will be subject to loss. If rates are reduced in the expectation that consumption will thereupon increase, the investment of the bondholders and preferred stockholders is not likely to be jeopardized whether the increased consumption materializes or not."

"In either case it is the common stockholder who risks the possibility of loss. It is the industry's job not only to meet the present demand of present consumers at present prices, but also to increase the uses of electricity, to extend it to an increasing number of consumers, and to make it constantly less expensive."

"These extensions of service, reductions of rates and increases in consumption are the very keynote of the industry's growing usefulness to the nation. How are they accomplished? They are all made possible by the assumption of responsibility by the holders of the

A Ridiculous Road Contract

The action of the state highway commission in giving the contractor 300 working days to grade the Marshall county section of the Benton-Murray road is unfathomable. It was already inexcusable

that the commission had failed to have this important road surfaced before now and postponing its completion until next year is adding insult to injury.

N. E. Stone & Co., which was awarded the contract, has stated that it will begin work right away but one instantly wonders, if that is its intention, why it asked for 300 working days on the contract.

Choose in Person

There are several reasons why we continue to urge the housewives of Murray and vicinity to choose their bakery goods in person at our shop.

First, they are assured of always getting fresh goods.

Second, they can see that all products are baked in the most sanitary conditions and handled cleanly.

Third, selection is greater.

We urge the ladies to come back and see our work actually done, you are always welcome.

SERVICE—COURTESY—VALUE

PARKER'S BAKERY

A Modern Bakery For a Modern Community

The 300 working days was a part of its bid.

There is no question but that this section over the new highway commission has been a good deal of abolishing the political practices which disgusted the people with the old road board and caused them to bring about its downfall.

The new commission has let all of its fine promises fall away like scales and resorted to the old familiar tricks, shrewdness and political deals that have choked Kentucky's progress since the memory of the present generation runs back not to the contrary.

The employee service records which were burned in the questionable case in the old capital building two years did not question the state's road employees about religious and political affiliations but merely recorded the workers' education, training, experience and other factors that determined their fitness and ability to build and maintain roads.

The new service records, which are reported on reliable authority to have been prepared by Chairman Ben Johnson (the state's political stormy petrel), question each employee closely about his political, church and personal relationships. One case is known in which a high grade engineer resigned because he felt that his religion was a handicap to him. He is a protestant. Chairman Johnson is a prominent catholic of the state.

The new commission, like the old, has been adept at making promises and engineering deals. It begins to appear very much that Kentucky simply robbed Peter to pay Paul when it chinked up the highway board.

The 300-day contract on this important, arterial road that should have been graded months ago, will not increase public approval of the present commission in this section of Kentucky at least.

Refreshing Rain

The rains during the past week have materially altered the situation in Calloway county for they have not only refreshed the soil, the crop that is still out, but also the spirits and the hopes of the people.

The situation is not near so bad as it was two weeks ago and if we will fully capitalize the opportunities that the rains have brought we can still do much to remedy the situation. That a good many folks are doing that very thing is indicated by hundreds of acres being planted to rye and turnips and other fall crops being sown in profusion.

There is no use in bemoaning the fact that the essential moisture did not come two months ago. It simply didn't and there's no use crying over spilled milk. Rather, we should be thankful that it was

no longer delayed than it was.

Estimates of Calloway county's tobacco production are being steadily increased by the county's leaf experts as more rains fall. According to some of those who have been out in the county to see the effect of the showers, many crops which appeared to be hopelessly burned out have made a miraculous recovery.

Tobacco, like sorghum, can come out after proper rains when it appears that it is completely lost.

There are still a few late corn crops in the lowlands which will also be materially assisted by the rains. They will add many thousands of bushels to the estimates of a few weeks ago.

Altogether, it is seriously doubted whether the county is worse off than it was this time only two years ago. That year, an extremely wet one, drowned out all the early corn and practically the entire harvest was from that planted after July 15. This section was also in much a better general condition this past spring than it was in the spring of 1928, which was just immediately following the wet year of 1927.

The situation remains serious and may families will need assistance during the winter and aid in getting another crop on the ground. There is no question but that the recent rains have been worth hundreds of thousands of dollars to Calloway county and have done much to relieve the impending suffering.

Lespedeza Grows; Red Clover Fails

Nineteen Spencer county farmers secured good stands of Korean lespedeza this year, while 157 fields sowed to red clover in the county were failures because of dry weather, according to a survey made by County Agent R. S. Dunn and Ralph Kenney of the College of Agriculture. Ten pounds of lespedeza coating, \$4 were sown to the acre, and it is estimated that each acre will produce \$5 worth of fall pasture and in addition fully reseed itself.

The experience of Spencer county farmers is said to be typical of the experience of farmers in much of Kentucky this year. An average of 100,000 acres of red clover is sown annually in the state. Seedlings of redtop averages 150,000 acres and of timothy 100,000 acres. Three-fourths of the redtop and timothy sowed this year failed to produce a stand, it is estimated.

Needed Help At Once

A resident of the county asked a local business man if he thought the government or Red Cross expected to help the drought sufferers. The man addressed stated that of course he did not know, but that he believed something would be done for them.

"Well," the man earnestly said, "I wish they would let me have what they are going to have me right away. I want to go to the State Fair in Louisville next week and haven't enough money to make the trip."—Lebanon Enquirer.

The Governor And The Labor Leaders

Governor Sells has invited 500 labor leaders including members of the National organization to be his guests at the Executive Mansion at a banquet. This liberality on the part of the Governor toward the labor leaders could with much more propriety be spent at this time toward feeding the poor and the suffering of Franklin county or his own county of Knox. This is no time for banquets and receptions which cost thousands of dollars, but rather a time for every dollar that is not needed to be turned into food for man and beast. Belshazar had a celebration feast on

one occasion when the Persians came in and captured the city. The people who will want for bread this winter, with 3,000,000 unemployed, need more than a banquet. The Governor who has no corn in his field and no hay in his loft cannot view with any degree of pleasure a banquet given by the Governor to the labor leaders of this country. It looks as if the banquet is for the purpose of promoting the Senatorial campaign of John M. Robison rather than as a manifestation of the love the Governor has for the labor leaders. The Republican party always wants labor on election day as it wants the negro on election day and has not any use for either at any other time. —Elizabeth town News.

AMAZING RESULTS FOLLOW USE OF FAMOUS KONJOLA

Stomach and Liver Troubles Are Vanquished Again New Medicine Wins Praise.

MRS. EVA COOPER
"I suffered from stomach trouble for many years," said Mrs. Eva Cooper, Wueria Valley, R. F. D. No. 7, near Knoxville, Tenn. "Everything I ate formed gas and my stomach bloated terribly. My liver was sluggish and I had frequent and awful bilious attacks. Constipation bothered me severely. I tried a lot of medicines but none benefited me."

"At the urgent request of friends I was induced to try Konjola. This marvelous remedy ended my troubles in a few weeks. Today after taking four bottles, my stomach digests anything. My bowels are as Nature intends and I am stronger and have gained in weight. My whole system has been toned up by the fine tonic qualities of Konjola. I cannot say enough in praise of Konjola."

Although many people state that one or two bottles of Konjola benefited them, it is recommended that six or eight bottles be taken to obtain the best results.

Konjola is sold in Murray, Ky., at Dale, Stubbins drug store, and by all the best druggists in all towns throughout this entire section.—Ada.

Trouble About Remitting Taxes

The trouble with relief for agriculture by remitting the 1930 tax on farms is twofold. In the first place, the State tax of 30 cents on the \$100—\$30 on \$10,000 farm—is the least of the

burden. County and school taxes are the big ones. In the second place, it is the 1932 tax they have to pay in December, and that is another 30 cents on the \$100. The State tax is a large one, but it is largely offset by State departments and institutions. A reduction in this year's assessment wouldn't help the farmers until December, 1931. —Louisville Courier-Journal.

Why every telephone worker is a service salesman

The fact that more than 25,000 Southern Bell telephone men and women are enthusiastically promoting the sale of the service, is more than a matter of salesmanship.

It is a manifestation of their interest in the success of their Company and an expression of the spirit of cooperation which has made possible the epochal achievement in the telephone industry. They are inspired by pride in many years of progressive, unflinching service and loyalty to the ideals and traditions on which the business is founded.

They unhesitatingly recommend the quality, convenience and economy of the service, in the knowledge that no other comparable service or commodity gives to the consumer so much at such small cost.

Whatever your telephone service needs may be, do not hesitate to consult any telephone man or woman of your acquaintance. They are all anxious to give you the best possible service at the lowest possible cost.

bers of Commerce and other civic bodies, and to large producers and shippers who may be interested in the project.

This letter requests that should they have in view any prospective cooperation, they submit an outline thereof to the U. S. District Engineer at Chattanooga in order that it may be considered and reported upon.

The project for improvement of the Tennessee river was authorized and adopted by the River and Harbor Act, July 3, 1930.

The letter states in part: These recommendations are for the improvement of the Tennessee River from its mouth to Knoxville by low dams in number and approximate locations as set forth in the report of the District Engineer contained in the document referred to; provided that under the provisions of the Federal Water Power Act a high dam with locks may be substituted for any two or more of the low dams and built by private interests, state or municipal; and provided further, that in case the high dams are built before the United States shall have built the pro-

posed locks and low dams which are to be replaced, the United States shall contribute to the cost of the works of navigation for which substitution is made.

Appropriation of Millions—In adopting the project Congress authorized \$5,000,000 to be appropriated for beginning the prosecution of the work. Expenditures in excess of this sum may be made only after authorization in subsequent acts of Congress.

The act further directs the Chief of Engineers to ascertain and report to Congress on the first day of the first regular session of the 72nd Congress (December 7, 1931), advising as to the prospective cooperation offered by responsible interests under the Federal Water Power Act in the program of construction recommended by the Chief of Engineers providing for the nine-foot project by means of high dams.

Should you have in view any such prospective cooperation, you are requested to submit an outline thereof to the District Engineer, U. S. Engineer Office, 327 Volunteer Building, Chattanooga, Tennessee, in order that it may be duly considered and reported upon.

Under the provisions of the Federal Water Power Act applications for a preliminary permit for the investigation of any site for a dam are submitted to the Federal Power Commission, Washington, D. C.

It is requested that the report on survey of the Tennessee River and its tributaries be studied before reply is made. Reply by December 1, 1930, informing me of action taken or contemplated up to that date will be appreciated. It is requested that action taken up to November 1, 1931, be reported to reach this office no later than November 5, 1931, in order that the report may be prepared by this office and forwarded through channels in time to reach the Office of the Chief of Engineers by November 15, 1931.

Accompanying the letter is a report showing the prospective ultimate benefits for the river and its tributaries in improved navigation facilities, increased commerce, power development, flood control, and industrial development.

"Buy During Slump"

By HERBERT N. CANNON (Note—This article appeared in Forbes Magazine, August 15, page 75. Herbert Cannon is an outstanding authority and writer of financial matters, well known in both the United States and Europe.)

The San Francisco earthquake, if I may use that forbidden word, cured hundreds of cripples. They jumped up and ran for their lives.

They weren't as badly crippled as they thought they were. They didn't know they could run until their houses began to shake.

The Good Book, too, tells the story of a cripple whose weakness was more in his mind than in his legs. The Master said to him: "Rise; take up thy bed and walk." He rose and walked and carried his bed.

So, here is the thought, that I would like to send out to the business men of America.

"You are depressed. You think you are crippled. You are afraid of the future. You are full of fear."

"You have half of the gold of

the world and half of the machinery and most of the automobiles and all of the skyscrapers.

"You have the whole human market in the world and the largest corporations that the world has ever seen.

"You are ruled more by ideas and less by tradition than any other people in the world, you have usually done what you thought you could do.

"How can it be possible that a progressive nation of 130,000,000 people can be wrecked by the speculations of a little handful of fools in Wall Street?"

"The prices there were forced too high had to come down. Today all the prices are too low.

"THERE IS NOW A GOLDEN OPPORTUNITY FOR EVERY MAN WHO HAS EYES TO SEE IT."

"Dollars are now being sold for thirty cents. Practically every security in the United States is now being sold at less than its value.

"The way to create a fortune is to buy from pessimists. Pay your money and take the risk.

"Frick started his career by buying coke ovens in the slump of 1873. Carnegie made \$200,000,000 by buying steel plants in slumps.

"Hundreds of fortunes have been made by buying from pessimists. 'Ye Gods! What a chance there is at this moment!'

"In five years from now most American business men will belong to the 'I-Wish-I-Had-Club'."

"Then it will be too late to buy a dollar for thirty cents. The opportunity will be gone.

"When a horse balks, the balk is in his head, not in his legs. He moves on when he thinks he will.

"And when an American business man is depressed, the slump is in his head. There is nothing can be done, but when a man casts fear out of his mind, the world becomes his oyster.

"To lose a bit of money is nothing, but to lose hope—to lose nerve and ambition, that is what makes men cripples.

"This silly depression has gone on long enough. Get rid of it. It is inside of you.

"RISE AND WALK!"

Dr. D. C. Cannon

Value of Silos

Farmers who own silos are finding them extraordinarily useful this year in making the best use of the corn crop, according to reports which the College of Agriculture has received from dairy herd improvement associations.

Many association members are feeding cows more instead of less, on account of the drought, so they will go into the winter in good condition. The best dairy farmers know that little profit can be expected from cows called on to "rough it" through the cold weather, while good cows well fed will return a profit, even at present feed prices.

Virtue is its own reward. The collection plate gets the pennies; the devil gets the dollars.

No man needs an oculist when looking for trouble.

COMMISSIONER'S SALE

Calloway Circuit Court, Keys, Houston and Cornington, a firm composed of Dr. B. B. Keys, Dr. E. B. Houston, and Dr. Euclid Cornington, and Nat Ryan, Plaintiffs.

VS. Judgment and Order of Sale Charles Rowland and wife Cora Rowland, Neil Outland and husband Bert Outland, and May Wicker and husband, H. H. Wicker, Defendants.

By virtue of a judgment and order of sale of the Calloway Circuit Court, rendered at the August term thereof, 1930, in the above cause for the purpose of payment of debt and interest, and costs herein expended, I shall proceed to offer for sale at the court house door in Murray, Kentucky, to the highest bidder at public auction, on Monday, the 22nd day of September, 1930, at one o'clock or thereafter (same being county court day) upon a credit of six months the following described property, being and lying in Calloway County, Kentucky, to-wit:

Lot Number One described in plat as follows: Beginning at a post oak in township line at (A) between section four (4) and thirtysix (36) township one (1) and two (2) range four (4) east, thence eighty-four (84) degrees thirty (30) minutes, west, eighty-one (81) poles and eighteen and a half (18 1/2) links to a stake in section line at (B) thence south seven (7) degrees, east, ninety (90) poles to a stake at (C) and northwest corner at lot Number two (2) in said division, thence north eighty-four (84) degrees and eighty and a half (80 1/2) poles to a stake at (D) in the east boundary line of the west half, the northeast quarter of section four (4) township one (1), range four (4) east, thence with that line north seven and a half (7 1/2) degrees, west ninety (90) poles to the beginning, containing forty-five and three-quarters (45 3/4) acres except one-fourth acre sold to Boss Gibbs out of the northwest corner of the above described tract. For source of title see Will Book D, Page 391, for will of Reubin Rowland.

The second tract referred to herein is described as follows: Land lying and being in Calloway County, Kentucky, and beginning at the southwest corner of Reubin Rowland's tract, thence south twenty-seven and thirteen twenty-frats (27 13/21) poles, thence west forty-two (42) poles to the point of beginning, and containing seven and a quarter (7 1/4) acres, and being a part of the southeast quarter of section four (4), township one (1) and two (2), range four (4) east. For source of title see deed from J. W. Rowland to R. M. Rowland, January 15, 1896, recorded in deed book 9, page 252.

For the purchase price the purchaser must execute bond with approved securities, bearing legal interest from the day of sale until paid, and having the force and effect of a judgment. Bidders will be prepared to comply promptly with these terms—George S. Hart, Master Commissioner.

CITIES SERVICE Oils AND Greases

The type of high-quality lubricants the manufacturer of your car urges you to use

THE manufacturer of your car knows the value of lubrication. He fully appreciates its relation to the amount of service and satisfaction you receive from the car he sold you. That is why he devotes page after page of his instruction book to emphasizing the absolute necessity of frequent and thorough lubrication with high-quality products.

Cities Service Oils and Greases are of the type the manufacturer of your car had in mind when he urged you to use high-quality lubricants.

These lubricants are made from carefully selected crudes of supreme quality. They are refined with an experience dating back to the very founding of the oil industry, over 68 years ago.

They are then put to the most conclusive of all tests—the test of actual service—before they are offered for your use. Their quality is proved in a practical proving ground—in the Cities Service fleet of over 4000 motor vehicles.

Follow your manufacturer's advice—use oils and greases of unquestionable quality, such as Cities Service Oils and Greases. Make a Cities Service station or dealer your headquarters for oiling and greasing. Then you'll be sure of quality products supplied by trained experts who know how to lubricate your car as its manufacturer intended.

Calloway Defeats Graves

Calloway county entries beat every Graves county entry at the state fair that was at it's best at show.

A state group to represent Kentucky at the National dairy show was selected by the state dairy department. This group includes the cows of Yancey Bennett, Emma T. Brown and Hollis Rogers of Calloway county and two from Hopkins county and one from Marion county.

The work has been under the direction of County Agent, C. O. Dickay, who started the project in June. The calf club members sending the exhibit to the state fair is indebted to the Bank of Murray and the First National Bank who paid the car expenses to the state fair from Mayfield.

The finest equipment on the market, perfect acoustic conditions in the theatre and competent handling by the house staff are expected to provide the best quality of reproduction that can be heard anywhere.

Doctors Disagree

When children are irritable and peevish, grind their teeth and sleep restlessly, have digestive pains and disturbances, lack of appetite, and have itching eyes, nose and fingers, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought up children can have worms.

The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of White's Cream Vermifuge, the sure expellant of round and pin worms. If your child has any of these symptoms, try this harmless, old fashioned remedy, which you can get at 35c per bottle from Wear Drug Company.

Ken Maynard

Ken Maynard's interest in various colorful periods of American history takes him to old-time California in his thrilling Universal all-talking action picture, "Song of the Caballero," coming to the Capitol Theatre Friday for two days.

"I have always been interested in the old West, in all its phases," said Maynard, "and I have read and studied it extensively. In my opinion, California has one of the most glamorous pasts of any region."

Maynard has made the most of the colorful setting of California in "Song of the Caballero." The picture is packed with the thrills which the western star knows so well how to impart. In addition to adventure, romance and comedy, it is noteworthy for its music. Maynard having had three songs written especially for the production.

Maynard's leading lady in "Song of the Caballero" is beautiful Doris Hill, who appears in a romantic role as the daughter of one of the great Spanish families. The noteworthy cast includes Francis Ford, Gino Corrado, Evelyn Sherman, Josef Swickard, Frank Rice, William Irving, Joyelle, and "Tarsan." Maynard's famous trick horse, Harry J. Brown directed.

Capitol Theatre to Install Western Electric System

Chalk up another theatre that is going to give its patrons the best talking picture entertainment money and effort can provide.

Manager O. L. Boren of the Capitol Theatre states that the Columbia Amuse Company has signed a contract for the installation of Western Electric reproducing equipment, giving its patrons the same satisfactory reproducing apparatus that is operating now in more than 5,500 theatres throughout the world.

The finest equipment on the market, perfect acoustic conditions in the theatre and competent handling by the house staff are expected to provide the best quality of reproduction that can be heard anywhere.

Murray Building and Loan Association, a Corporation, Plaintiff

VS. Judgment and Order of Sale

Currie H. Lockett, Merrie T. Lockett, Paducah Iron Company, Decorators Supply Company, and R. H. Vandeveld & Company, Defendants.

By virtue of a judgment and order of sale of the Calloway Circuit Court, rendered at the August term thereof, 1930, in the above cause for the purpose of payment of debt and interest, and costs herein expended, I shall proceed to offer for sale at the court house door in Murray, Kentucky, to the highest bidder at public auction, on Monday, the 22nd day of September, 1930, at one o'clock, or thereafter (same being county court day) upon a credit of six months, the following described property, same being and lying in Calloway County Kentucky, to-wit:

Being a part of the southeast quarter of section twenty-seven (27), township two (2) range four (4) east, and described as commencing at an iron stake at the southeast junction of Poplar and Eleventh Streets in Murray, Kentucky, and at the northwest corner of the lot now owned by W. H. Graves and running east parallel with said Poplar Street one hundred and sixty-two (162) feet to an iron stake to the beginning, thence south parallel with the east boundary line of Eleventh Street two hundred (200) feet, thence east parallel with the south side of Poplar Street seventy (70) feet, thence south parallel with the west line to the south side of Poplar Street two hundred (200) feet, thence west with Poplar Street seventy (70) feet to the beginning. Being the same land deed to Merrie T. Lockett by deed now of record in deed book 63, page 492, Calloway County Court Clerk's office.

For the purchase price the purchaser must execute bond with approved securities, bearing legal interest from the day of sale, until paid, and having the force and effect of a judgment. Bidders will be prepared to comply promptly with these terms. George S. Hart, Master Commissioner.

Hazel Defeats Benton in Close Game Sunday

Outside of some loose playing by Benton in the first inning, which enabled Hazel to score four runs, some good baseball was played in a 6 to 4 victory of the Calloway county lads over the Marshall county team at Benton Sunday.

Wickless on the mound for

Hazel pitched a steady game of ball at all stages. Benton was never able to score more than one in any inning, and Hazel kept their best hitters popping up throughout the contest.

Hazel also pitched a steady game for Benton.

Ralph's Rarities

By Ralph West

While we are talking about this and the other, it is worthy to mention the team that most of us know best, the University of Kentucky Wildcats.

The Wildcats, without severe injuries, should have an outstanding team of the South. In 1929 they had an excellent season, winning six, losing one and tied the powerful University of Tennessee.

Head Coach Harry Gamage looks on with high spirits at his prospects—and, why not?—with 52 men reporting and where he can pick a line which will average 260 pounds and a back field that will average between 165 and 175 pounds.

Any coach's heart should be gladdened by a bunch of beef and brains like that.

The Wildcats will play eight games, six of them on the home field.

The "Turkey Day" game with University of Tennessee at Knoxville, should make history this year.

You know it takes a little psychology to get results and especially a highly strung bunch like you will find on a football field, it takes a lot of backing to put out a fighting team and the best way way to get this wanted result is to have the student body back of the team—I mean have the spirit and pep, and to turn it loose.

Both Murray High and M. S. T. C. need organized yelling sections and yell leaders that will let it go.

The yell leader is to the student body what a quarterback is to his team. We need re-organization along this line—let's get it!

By the way people, meet "Ty" Holland, athletic coach of Murray High School.

POSITIONS-ROOMS WANTED

A large number of deserving young women and young men, who will need some assistance in completing their education, will enter the Murray State Teachers College this fall.

Inasmuch as the number will far exceed the available positions at the college we are asking the fullest co-operation of the citizens of Murray in aiding these young people to obtain their education here.

There will be several young ladies of the best families who will be anxious to assist in housekeeping in good families to aid in defraying their expenses.

Every business firm in Murray that can use part-time helpers will find capable and courteous young men at the college.

It will also be required to have ample rooming facilities for both young men and young women and light house keeping room for a number who will desire them.

If you can help in any of these cases it will be very much appreciated if you will call

"Ty" is making great progress with his Tigers. Both new and old men are improving rapidly each day.

In scrimmage last Friday we found ability that had not been discovered before and for over an hour, in rain and mud, the Tigers undaunted, scrimmaged with renewed energy.

On Tuesday afternoon a scrimmage that made Friday's look like a picnic. For fully an hour the Tigers scratched and snarled over the planks. And the way the lads fought was terrific. With precision picked up on the line as the two teams met to conquer. There was very little difference in the lines that included: Dingeld, Overbey, Starks, Jones, Washam, Lee, H. Perkins, Maddox, Wear, Hatcher, Finney, Walker, Irwin and they sure are fighting for their berths on the team.

The backfields showed great improvement with Ryan, Weeks, Franklin, Fair, White, D. Perkins, Thurman, Barrett, and Banks putting up a mean scrap for positions.

Every since I have been big enough to wiggle in a barber's chair I have followed football but at this time under the prevailing conditions I am unable to pick an eleven as I am to pick the winners in the present baseball rag chasers contest. But I am going to give a probable line-up for Friday's game with Clinton:

Warhorse Maddox, end; Kilgore Irwin, tackle; Stub Lee, guard; Crate Knight, center; Bud Starks, guard; Woffy Overbey, tackle; Shorty Roberts end; Slim Barrett, half; Maddy Thurman, full; Carl White, half; and Tootsie Banks, quarter. And I say there are others just as good or even better to be used.

Coach Holland is enjoying an unusually large squad. With the opening of regular school last Monday several "half" team players reported and by looks and actions displayed by these new comers, some one will have to shake a mean limb to retain their sought-for positions.

Clinton's strength is unknown, but whatever it is the Tiger squad should be able to take 'em on in good style.

Reports are that the M. S. T. C. freshman team looks like an overgrown bunch of beef and the prospects are that a winning eleven could be put out. They have the picks of Kentucky, Tennessee, Mo., high school graduates.

The "Thoroughbreds" are displaying great ability and with the coming scrimmages we can get a line up on them.

The whistle blows on M. H. S. athletic field Friday afternoon—BE THERE!

Idle curiosity is probably the busiest thing on earth.
